100 Dollars Reward.

I WILL give the above reward to any person who will return to my possession, negro LAWRENCE, who assumes the sirname of FENWICK. This fellow left my farm, on the Wicomico river, in Charles county, Md. on the 6th July, in consequence of his own outrageous conduct towards my overseer. He is a negro of a fine erect figure, good features, a smooth black skin, rather above the middle stature, of a youthful appearance for one of thirty years of age, and of great plausibility and natural smartness. His ears grow remarkably close to his head, and on the inside of his lower lip he has a white mark or spot. I purchased him 4 years ago of the estate of Mrs. P. H. Courts, of this county. I am led (by circumstances which have come to my knowledge since he absconded,) to believe that he will endeavor to make his way to King George county, Va.; should he not take this route, he will probably be met with in the District of Columbia, or in the upper counties of this state, on his way to Pennsylvania. I apprehend he will change his name, and if committed to jail, refuse to state to whom he belongs, as the misconduct which preceded his departure, & his absconding, have all appeared since to have been premeditated. He took all his clothes with him, of which he had a large number; among them—a new bear-skin over-coat, a long close-bodied blue coat, a pair of striped jean pantaloons, one or more white waistcoats, besides many articles of coarse cloathing; these, however, he will probably exchange, or sell them for cash to defray his travelling expenses.

I will give the above reward to any person who will bring him home to me, or *FIFTY DOLLARS* if confined in jail, and notice given me, so that I recover him.—Should he be taken out of the state, I will also pay all reasonable costs and charges which may attend the bringing him home.

I will give the above reward for apprehending and securing said fellow so that I get him again, and reasonable charges if brought home.

Notice,

To Wheelwrights, Blacksmiths, Tanners, Harness-Makers, Saddlers, Hatters, &c.

BELIEVING as I do, that PROVIDENCE, at Fairfax Court-House, would be a suitable situation for mechanics of the above description, I offer to such, lots in that village for sale, on ground rent for ever—will build and furnish suitable houses and rent to them, or furnish brick to them to build with; and invite any who feel disposed to settle there, for the purpose of carrying on their respective trades to advantage, to come and view the situation. It is a very public place, the centre of the county, where the superior and county courts are held. The Little River Turnpike Road passes through this little town from Alexandria westward, and where all the public meetings for the county, &c. are held; and where trades of the aforesaid description being carried on, would meet with great encouragement, and be a public convenience to the country around. No situation can be more healthy—good water, and fire wood cheap. Mechanics of the above description must generally depend on the country people, farmers, &c. to be their customers. Here they would be in a convenient situation for all the purposes. I invite a call, and view for themselves. I would also furnish lots adjacent, from one to five acres each, for cultivation, pasture, &c. on moderate terms; all of which can be shown, and terms made known, on application to RICH'D. RATCLIFFE.

RAN away on the 28th of April, from the farm of the subscriber, in Dogue Neck, Fairfax Co. Virginia, negro HARRY, aged about twenty three years, about five feet ten inches high, very black, well built, has a considerable impediment in his speech, when spoken to evinces much confusion, and replies almost unintelligibly; had on when he left home, a much worn suit of domestic cloth. I have every reason to believe that he is endeavoring to pass for a free man, and as such went off in some of the bay craft during the late fishing season. All masters of vessels are forewarned from harboring or taking into their employ said negro, under penalty of having the law rigidly enforced against them. I will give twenty dollars, if taken in the county of Fairfax, or district of Columbia; if beyond that distance, the above reward, provided he is secured in jail so that I get him again. Missouri and Illinois Bounty Lands

THE subscriber has now for sale a number of the most valuable tracts, in both of those rich and improving bodies of lands, and can supply applicants with any number they may wish, and in any part of either territory. Every person who visits the Western Country, particularly those who intend settling there, should take with them a few quarter sections of those lands; every man who has a young and growing family, and can spare a few hundred dollars, should not miss the present opportunity of getting some of those lands; as it will insure to his children a greater certainty than any other investment he can possibly make for their benefit.—From the immense emigration to both Illinois and Missouri, particularly to the military lands, it is certain there must be a great rise in the price very soon, and those who miss the present opportunity, will never again have a chance to do so well. The patents will be sold very low, for cash, good notes or bonds at short dates, or bank stock in the Central Bank of Georgetown and Washington, and the Farmers' and Mechanics' Bank of Georgetown. As I am a large dealer in *Military Bounty Lands*, I can supply any number that may be required.

FROM SPAIN—IMPORTANT.

From our correspondent in Gibraltar we have received the following interesting communication. [*Herald.*

"*Gibraltar, July 19.*

"You will have heard so much about the banishment of the Marquis Yrugo from Madrid, before this can get to hand, that it is useless to trouble you with the story now.——A matter of more importance is before me: the grand expedition at Cadiz is gone to the devil. Just at the moment that 20,000 troops were in the highest state of equipment for foreign service 15,000 laid down their arms, and scampered off in all directions!!

"Several fugitive officers have arrived here, who state that O'Donnell, their Governor and Chief, from the first had projected a plan, that when the expedition was complete, instead of embarking the troops for South-America, he would march them to Madrid, and demand the Constitution and Cortes; that in the progress of this plot, he had enlisted the general and subaltern officers, and three-fourths of the army, and found out that the rest were loyal and devoted to the king. That he called a grand review of the whole (preparatory to divulging publicly the scheme that they thought was about to be consummated) at St Mary's, over the bay of Cadiz That he secretly gave orders that the disaffected regiments should be provided with blank cartridges, and the loyal (5000) with ball, the latter of which he took command of in person, formed them into a square, and under pretence of having some orders to communicate, called all the officers of the other reigiments to the centre, when he informed them they were prisoners; then riding up to their division ordered them to ground arms—Seeing they were betrayed, and panic struck at the capture of all their officers, the troops, 15,000 in number, laid down their arms, and fled in the greatest consternation in all directions, nor was any effort made to stop them.—The officers were put in confinement, consisting of eighteen general and eight hundred subalterns. O'Donnell himself has gone to Madrid to know what is to be done with them, and what measures are necessary to be taken in such an extremity.

"Such is the history of the business, as we get it from the officers who have fled to this place, and from travellers coming over. No one dare trust an account of it upon paper, through the post office. This is, however, sufficient to show that the expedition is destroyed, which these officers say no power of the king can restore! It is not to be supposed that so great a rebellion is over at once: more may be looked for.

"The treaty is in *statu quo*, and the whole of our squadron in this harbor; part of it, however, moves in a few days up the Mediterranean."

"P. S. Many of the merchants of Cadiz, it appears, were concerned in the conspiracy: three of them fled and have just now arrived here, one of whom had subscribed one hundred thousand dollars to raise the ways and means.

"Captain Zebina Sears, who has been long a captive of the Spaniards, and confined on the island of Melillo, on the coast of Barbary, has made his escape and got amongst the Moors. It is expected he is now at Tangiers."

"20th. New troubles have broke out in Valencia: Elio, the governor, is said to have been assassinated!

21st. A letter from Cadiz this morning says, "twenty-five hundred troops have been embarked under a strong convoy, believed for Carraccas."

A NUMEROUS AND THRIVING FAMILY.

On Tuesday last, while several men were engaged in ditching in the town of Wilton, they discovered at a short distance from them a Rattlesnake's Mate, (or Cousin, as they are sometimes denominated) of an enormous size. In the true spirit of *heroism* they determined to secure the prize, and finally succeeded in killing it. On opening it, they found *Eighty-two live young ones*, of from nine inches to one foot in length. [*Rhode Island paper.*

From the Richmond Enquirer.

THE CROPS.

The following letters, one from the county of Charlotte, the other from the state of Georgia, present very opposise, but interesting views of the state of the present crop in different sections of the country. The truth is, our country is so large, 1. That if the crops fail in one part, it succeeds in another, and thus the superflux of one tends to relieve the deficiency of the other; 2. It is besides so well intersected with water courses, and assisted by coast navigation, that the breadstuffs of one district are with comparative ease and cheapness transported to many others; 3. We have also this advantage, superior to almost every other country in the universe, that we have different breadstuffs for the support of our countrymen. If the wheat harvest fails, we may obtain relief from the corn crop, and *vice versa*; Whereas the countries of Europe, depending upon one principal source of supply, are liable to many and serious inconveniences from the failure of their harvest. But *famine* can scarcely ever approach *our* doors:

TO THE EDITOR.

"*Monticello, (Geo.) Aug. 29.*

"The prospects of the agriculturist were never more flattering in this country, particularly the new purchase of Georgia; corn and cotton, unusually luxuriant; and should the continued rains not produce the rot in the latter, a very abundant crop will be made. Corn, it is supposed, will not command more than 1 dollar 50 cents per barrel, from the stack; though last autumn it was worth from 1 dollar 50 cents to 2 dollars per bushel."

TO THE EDITOR.

Dated Charlotte, 19 August.

In answer to your request of the 10th inst. I propose to give you some account of the very fatal drought in this part of the country, and of our prospects for a crop.

I will premise what I intend to write by informing you that I have lived on this plantation in the neighborhood of Charlotte Courthouse 41 years, the greater part of which time I have kept a memorandum of remarkable events, such as droughts, uncommon wet spells, great freshes, early and late frosts, &c. This year has been uncommonly dry ever since early in May, so that the oat crop has come in very short, I think not half the average crop.

Wheat had so far made itself before the drought became excessive, that the quality is good, but there was not much seeded; there is, however, an average crop of wheat.

The corn crops, unless the refreshing showers we have had now for three days in succession, should do more for it than we can well calculate upon, will not be much more than half an average crop, and in some neighborhoods, as I am informed, (for I go very little from home) they cannot possibly make bread. I have a son and nephew, just returned from a visit to the Missouri; they say mine is the best crop that they have seen off the rivers this side of Lexington, Kentucky, and that in their opinion, numbers of farmers will not make more than a peck of corn to the acre.

Of the tobacco crop I know not how to speak: I will just describe my own to you, we have not had a good season for planting since early in May, until this week, and it is now quite too late to plant. We have had two slight seasons since May, one the 10th June, the other the 16th July; we have made out to get about 150,000 planted; much of it would live about a week and die: there is now about 30,000 hills entirely missing, & from 20 to 30,000 more about as large as it was when planted. We have planted, watered and covered, a considerable part of what is now growing. We have some right likely tobacco, and think if no disaster happens to it, we shall make better than half a crop. We are beginning to house, it is of good quality.

N. B.—I have a plant patch, an old standing one, on a branch which we have always been able to water in the night or morning, the driest spell I ever saw, until this summer; it has been almost constantly dry, and no chance to water it. G. S.

LATEST FROM LIVERPOOL.

The editors of the Gazette are indebted to Mr. Topliff, at Boston, for London and Liverpool papers of the 4th and 7th ult. and a Prices Current of the same date. It will be seen that the products of the United States continued to rise in price, and to be in brisk demand.—This information comes by the ship Meteor, Capt. Glover, which arrived at Boston, in 30 days from Liverpool.

BRITISH NAVAL INTELLIGENCE.

A London paper of the 26th of July last states, that two line of battle ships (the Superb and Vengeur,) are to be immediately sent to South America; but they are not intended as a permanent augmentation to the naval force there, as they are expected to return in about ten months. The Superb has been equipped for sea with great celerity, at Plymouth. Com. Sir Thos. M. Hardy had left Plymouth for the Admiralty, to receive his final instructions from that Board. The Owen Glendower frigate is also commissioned for the South American station.

Thus it appears that the English, from some cause, are exercising their naval force on the coast of South America.

Capt. S. Roberts is appointed to the naval service on the Lakes of Canada.

Admiral Sir Henry Blackwood goes out in the Leander, of 50 guns, to relieve Admiral King, as commander in chief in the East Indies. —

By the explosion of a coal mine, near New-Castle, England, about 40 persons lost their lives.

The Prince Regent, by proclamation, offers a reward of 400*l.* for the apprehension of the persons concerned in firing a pistol ball at William Birch, the constable, who had in custody Jos. Harrison, the schoolmaster, whereby said Birch was severely wounded.

Gen. Sarazin has been convicted of bigamy at Paris, and sentenced to ten years hard labor, the punishment of the pillory, and damages to the plaintiff to the amount of 40,000 francs. The plaintiff was Miss Georgiana Maria Hutchinson, an English lady, whom the General married in London in 1813.

Professor Playfair died at Edinburgh, on the 20th July.

The present harvest uniformly throughout England, is the finest and most abundant that has been known for many years.

Price of Stocks in London, Aug. 4.

A meeting of the reformers of Manchester was called on the 19th ult. but the Magistrates pronounced the meeting illegal, and cautioned all persons, at their peril, to abstain from attending it. We observe in the London papers, other notices of similar meetings.

The Prince Regent, by proclamation of the 30 July, solemnly warns the people against any attempt to overthrow the law, and to abstain from every seditious measure inconsistent with the peace and good order of society, at their peril.

Several seditious persons had been apprehended, and bound over to stand their trials, viz. Waddle, Mitchell, Mark, and others.

New York papers to the 2d, and Philadelphia papers to the 5th July, had been received in London.

On the 26th of July, at Carlsruhe, the marriage of the Margrave Leopold with the Princess Sophia-Wilhelmina of Sweden, was solemnized.

Advices from the Cape of Good Hope, of May 10th, state, that there had been another irruption of the Caffrees, who by the last accounts, were supposed to be completely repulsed, to the number of 30,000 men. They had crossed the river which divided their territory from that of the Cape, and were committing the most extensive depredations. Orders had been given to the military force at the Cape to repel the invaders.

The foreign exchanges, on which the price of the precious metals so materially depends, still maintained their former elevation. On Paris, their was scarcely any alteration in London, on the 3d; but that on Holland, and on Hamburgh, has risen; the greatest improvement had taken place in the exchange on Frankfort, which was about one per cent. higher.

London, August 3.

COTTON.

The demand for Cotton is brisk and extensive, both here and at the out ports; the purchases last week in London exceed 3400 bags, at Liverpool 20,100 bags, and at Glasgow 2146 bags; the prices are ½d. to 1d. per lb. higher; it is also to be remarked, that the chief of these sales are to the manufacturers; of 20,100 bags at Liverpool last week, 17,000 were for immediate home consumption; the purchases in London since our last consist of 306 Pernambuco 18½d. to 18¾d. 140 Ceara 17d. to 17½d. 103 Boweds 11 7-8d. to 11 1-8d. 115 Demerara 14d. to 16½d. 22 Berbice 12 7 8d to 16d. 53 Carriacou 15½d to 16 7-8d. 50 Grenada 15½d. to 15 5 8d. 41 common W. India damaged 5¾d. to 12d. 30 Laguira 11½d 2070 Bengals 6 3-8d. to 7¾d. a few 7¾d. 400 Surats 6 3 8d. to 9d.

The demand for Cotton this forenoon is not so brisk or extensive as last week; the prices, are, however fully supported; a public sale, consisting of 144 bags, was brought forward to-day.—120 bags very good St. Vincent's, and of a very favorite mark, sold steadily at 15½d. to 16¾d.; 20 bales foul Surats we believe were taken in at 6¾d; 12 Trinidad at 12½d.

Liverpool, August 7.

The demand for cotton this week has again been very great, and a further improvement in prices has taken place in most descriptions; Boweds and Orleans have in many instances obtained an advance of 1-4d to 1-2d per lb. (the latter description is getting rather scarce); Bengals and Surats have improved in the like proportion, and Brazils are in good demand at 1-2d to 1d per lb higher rates. A good deal of the business transacted has been on speculation, and the sales altogether exceed 13,000 bags. There has been a good demand for tobacco, particularly for Kentucky Stems, and the trade as well as speculators have purchased rather freely of this description at an advance of 1-4d per lb. and about 80 hhds. of Kentucky Leaf of ordinary to fair quality have been taken for shipment at 3d to 3 1-2d per lb. The sales effected in ashes this week have been rather limited; some small parcels of Montreal pots have been sold at 36s to 37s. being an improvement of 1s per cwt. and 60 barrels of New-York in bind, for export, at 28s per cwt. No alteration in Pearls. Turpentine continues steady, and 500 barrels of good quality have been disposed of at 12s 9d per cwt. Tar is rather lower; for 600 barrels Stockholm 15s 6d per bbl. were obtained, and the import from the Baltic has been rather heavy the last few days, say upwards of 8000 barrels. Quercitron Bark continues without alteration.

Corn Exchange.—The business transacted at this day's market was extremely limited, and former quotations are nominally the same. Carolina Rice continues steady, and 150 casks have been sold at 21s to 21s 6d for fair quality, and 22s 6d per cwt. for the fine new. Of the Patna Rice offered at auction yesterday, only 200 bags (duty free) sold at 18s 9d to 19s per cwt. for good quality.

Sicily Brimstone has been sold at 23*l.* 10s to 24*l.*; Tuscan at 24*l.* 10s. per ton; and Sicily Shumac at 20s to 21s. per cwt. In other articles of Mediterranean produce no alteration.

The public sales of British Plantation Sugars brought forward this week have again been very extensive, say upwards of 1500 hhds. of which 1200 sold, with little variation in prices from last Saturday's currency, except in low brown Sugars, which yesterday experienced an improvement of 1s per cwt. In foreign nothing has been done. Coffee has advanced 4s to 5s per cwt. this week, but the business transacted has been rather limited. A small parcel of pimento has been sold at 7d per lb. In cocoa and ginger nothing has been done. Rums continue in demand, and 3 to 400 puncheons of Jamaica have been sold at 3s 2d for common up to 3s 8d per gallon 16 O. P. for fine flavors.

There has been rather more inquiry for logwood this week than for some time past, and 100 tons of Campeachy have been sold at 7*l.* and 60 tons St. Domingo at 6*l.* 10s. per ton. 20 tons Cuba Fustic have been sold at 9*l.* 7s. 6d. and about 40 tons Oily Barwood at 3*l.* 15s. per ton, duty paid: in other descriptions no alteration. Yesterday 20 chests East-India and 24 serons Caraccas indigo were sold by auction at prices fully equal to what were obtained at the last indigo sale; the former obtained 3s 5d to 6s 1d; and the latter 5s 3d to 8s 6d per lb. according to quality. Palm Oil has been sold at 45*l.* per ton for small parcels: nothing was done at the public sale on Monday last. In other descriptions of oil nothing of consequence has been done. The import of tallow this week has been considerable; the market in consequence continues dull, and the annexed quotations cannot easily be obtained. Some parcels of hides have been sold at about the annexed quotations. Hemp stationary

From the Village Record.

CAPT. SYMMES' HYPOTHESIS.

We last week introduced to our readers, Mr. Heckewelder's account of the Indian history, manners, &c. Some extracts were made, which we doubt not were entertaining. There are a few more remarks and extracts which we feel inclined to make, being assured they will be acceptable.

"INDIAN MYTHOLOGY.

On this subject I beg leave to present an extract from the manuscript notes of the late Rev. Christopher Pyrlæus, whom I am always fond of quoting with respect, as he was a man of great truth & well acquainted with the Six Nations and their idioms. The account that he here gives of the traditions of that people concerning their origina existence, was taken down by him in January 1743, from the mouth of a respectable Mohawk chief named *Sgunarudy*, who resided on the Mohawk river.

THE EXTRACT.

"*Tradition.*—That they had dwelt in the earth where no sun did shine. That *Gonawaguhha* (one of them) having accidentally found a hole to get out of the earth at, he went out, and that, on walking about on the earth he found a deer, which he took back with him, and that, both on account of the meat tasting so very good, and the favorable description he had given them of the country above and on the earth, their mother concluded it best for them all to come out; that accordingly they did so, and immediately set about planting corn, &c."

Is the reader acquainted with the opinion and projects of Capt. Symmes? He maintains that the earth is hollow—that there is an entrance into it at the north pole; and that it is inhabited. In the above extract we probably find the source from whence he has derived these strange notions, for he has resided many years in the vicinity of the Indians.

Without supposing that the Indian traditions will add much weight, in the public mind, to the opinions entertained by our new philosopher; there is another fact which has lately come to light, which is well calculated to encourage Capt. Symmes to undertake an expedition for discovery, towards the North. We allude to the new people found by capt Ross, in the discovery ships the last summer, in latitude 76 degrees; the very interesting account of which we have recently seen published in the Record. These people pointed to the

North, as the place of their residence, and had come down for the purpose of fishing; they did not believe that Capt. Ross came from the South, "because" said they, "it is a great mass of ice"—of course it follows that they must live in a country not a mass of ice, for they deem such a one uninhabitable—and that north, of where they were found, the climate becomes milder and inhabitable; besides, it is worthy of remark that they mentioned their country as having a great deal of water; not ice.

These facts, highly important certainly, shew that far north of the regions which we have heretofore deemed inhabitable, where we have considered winter robed in snows, and crowned by storms, to reign in the awful despotism of desolation, the climate undergoes a favorable change, the cause of which it is not easy, from known philosophical principles, to account for.

Capt. Symmes, in one of his essays, states, that, north of any inhabited part of the country, it has been long observed that reindeer migrate; that after being a considerable time absent they return, sleek and fat; from which he infers, fairly too, that they must find a milder climate, fitted to raise food for them, and consequently fitted for the habitation of man. The facts stated by capt. Ross confirm his conclusion, and render it a matter very desirable that the expedition projected by capt Symmes should be undertaken.

JOHN HOPKINS

Hill and Dale, April 20.

Gunston for Sale.

THIS elegant estate is situated on the Potomac, 16 miles below Alexandria—it is bounded on three sides by the Potomac and Pohick creek, and contains nearly 3,000 acres of land, level and fertile, to which are attached six shad and herring fisheries, two of which command the river channel. This land will be laid off in four tracts, so as to have one or more fisheries to each; these tracts will be again divided if requisite. This estate is level and beautifully situated, very fertile, and remarkably healthy. Plaister acts with an effect equal to that of any part of Virginia or Pennsylvania.—I have used 500 bushels in twelve months, and such is its beneficial operation, that were I to keep this land I should considerably increase the quantity. A manufacturing mill is distant about two miles, on a stream navigable for vessels carrying 1200 bushels of wheat, where the Baltimore and Dist. of Columbia prices are given for grain: being bounded on 3 sides by water, a small extent only of fence is necessary to inclose the whole: it would be admirably adapted to grazing. The im-

provements are a large and very substantial brick mansion, 40 by 70 feet, with every necessary outhouse, three commodious barns, houses for Negroes, and fish houses at each of the fisheries. 120,000 bricks and 1000 bushels of lime are just burnt on the premises. There is a considerable extent of live fence, both useful and ornamental, two orchards of well selected apples and peach, besides an abundance of other choice fruit. More than 150 acres are in clover, 200 in corn, and land is in preparation for sowing 250 bushels of small grain. Any quantity of hay can be cut from the low grounds, some of which (and all might,) have been reclaimed at a trifling expense. The river and creeks abound with wild fowl, particularly canvass backs, the woods with deer and a variety of other game. Mules, cattle, highly improved sheep, farming utensels and household furniture can be had. The terms of sale will be accommodating. Property in any of the cities, negroes, bank stock, western lands, or lands near the Ridge, will be taken in payment.—Letters must be addressed to me at Pohick Church, Fairfax county, Virginia.

S. Drew, Merchant Tailor,

Removed from Fairfax-street to the corner of King and Columbus streets, and his prices falling

RESPECTFULLY acquaints his customers and the citizens in general that he has removed as above, where he will study to give satisfaction. He has by him a small but well assorted stock of goods, which will be found on inspection to be of the best quality, the whole of which he wishes to sell low for cash, and as further inducements to purchasers he offers to cut out any goods, bought of him to any size or pattern gratis.

S. Drew aware, of the advantage a ready money business has over one where long credit is given, thinks that a distinction ought to be made in the prices in each case: and as the price of provisions are low at present, he is glad to be able to announce to those customers who will feel disposed to pay him ready money for his work, that he will reduce the price of making to them according to the present journeymen's wages; and to prevent any supposed imposition on the one hand or disatisfaction on the other he is willing to be goverued by the printed regulations of prices by which the journeymen are paid in Alexandria.

N. B. Bread, flour, beef, groceries, liquors or any thing valuable taken in exchange for clothes.

S Drew has this day opened a tavern in the same house, where he has laid in a a supply of Philadelphia and the district porter and ale, together with liquors of the best quality, and he feels confident that he shall be able to give satisfaction to all who will please to favor him with a call.—He is fitting up his house for the accommodation of boarders, travellers, &c. and from its central situation, good beds and stabling, together with other requisites, he presumes that it will be found a convenient establishment. may 25

PROSPECTUS

Of a new periodical work to be published in the city of Washington, entitled the

Washington Theological REPERTORY.

EDITORS. { Rev. Wm Hawley, Washington,
Rev. Wm. H. Wilmer, Alexandria,
Rev. Oliver Norris, Alexandria,
Rev. Reuel Keith, Georgetown.

Assisted by several other literary gentlemen of the Protestant Episcopal Church.

IF any apology were necessary for this undertaking, it may be found in the fact, that there is no publication on a similar plan, in all that section of our country lying south of New York, and but one in the whole of the United States. It has been matter of equal surprize and regret, that the Episcopal Church should be so far behind other Christian denominations, in similar efforts to disseminate the principles of religion and piety. At a period like the present, when the Lord is preparing his way on earth, by the most remarkable efforts of human agency, and the most wonderful operations of his providence and grace—when we perceive in every part of Christendom, a praise-worthy emulation to share in the glorious work of filling the earth with the knowledge of the only true God, and his Son Jesus Christ; it would seem criminal for any to withhold their exertions, however feeble, in the great enterprize of human happiness and salvation. The editors have, therefore, felt it their duty to make this humble effort to supply this acknowledged deficiency on the part of the church in this section of the country, and to bear their share in the common exertions of Christians to promote the Redeemer's Kingdom. And having obtained the services of a gentleman, in whose talents and principles they have confidence, whose time will be wholly devoted to the superintendence of the work, they feel encouraged to solicit the patronage of the public.

The publecation will be conducted under the immediate inspection and control of the above named editors, who will form a committee to review every article intended for publication. The principles upon which it will be conducted are those of the bible, as illustrated in the articles, Liturgy and Homilies of the Protestant Episcopal Church. As members of this church the editors will feel bound to support the Apostolical character of her institutions, the pious tendency of her rites and ceremonies, and the evangelical nature of her doctrines. But in these, and all other discussions, they hope never to loose sight of that great law of charity which teaches us to "preserve the unity of the spirit in the bond of peace."

Acting upon those catholic principles, so long and so successively pursued by "*The Christian Observer*," their chief object will be to inculcate sound theological knowledge, and to delineate and recommend pure and vital religion. They trust therefore, that while the members of every Christian denomination may find something edifying and instructive, none will discover any just cause for offence in the pages of this work. General subjects of biblical criticism, practical illustrations of scriptural truth, the biography of illustrious persons, evidences of the truth of revelation, essays on the history and polity of the church, reviews of interesting publications, religious, literary and philosophical intelligence—in short, whatever is connected with the promotion of religion, humanity and literature, will find a place in this repository.

The testimony of experience supersedes the necessity of dwelling on the advantages of a periodical publication on the plan proposed. Its obvious tendency will be to render the various departments of religious knowledge more easy and accessible, and give a more ready currency and wider circulation, to those great truths which involve the present welfare and future destiny of man.

It will tend powerfully to stimulate the exertions of the editors, and console them under the difficulties attendant on the prosecution of this work, amidst many other avocations, should it prove the means under the blessing of God, of enriching any of its readers with the saving knowledge of Christ, and prepare them for a participation in the felicity and glory of his heavenly kingdom. With this hope they commit it into his hands, and confidently solicit their brethren of the clergy and laity to assist them in carrying into effect the objects of the undertaking.

TERMS OF THE WORK.

A volume of the Repertory shall consist of twelve numbers, of which one shall be published on the first day of every month, containing thirty-two large octavo pages, stitched in blue, and attended with a table of contents.

The paper used in the work shall be good, and the typography executed with the greatest care.

The price of a volume is two dollars, payable in advance; to such as omit the advance, two dollars and fifty cents.

It is designed to enlarge the size of the work, without increasing the price, as soon as one thousand subscribers shall be obtained.

Communications and remittances may be directed to any of the editors, post paid.

Any person becoming responsible for five subscribers, shall receive a sixth copy gratis.

The first number may be expected in the month of July. June 26
